## The Viscome's Western Trip

The Lord has been gracious to us at our age to be spreading His Word across this nation.

After many phone calls and much prayer we made a schedule and headed west.

God supplied many mission apartments along our 10,600 mile journey. The mission van has 340,00 miles on it and is still going strong. We just heard of a van like ours going 500,000 miles! My mechanic put a new radiator in before the trip, because we overheated the last time we went over the Rockies. An air conditioner compressor was replaced in Wyoming.

We left New York State June 28 and returned October eighth, 103 days on the road giving Scripture signs away in churches.

What a joy meeting many of the brethren, every one looks familiar, probably because of the same Spirit.

We presented the ministry in 21 churches and 341 Gospel signs were given away. Pray that seed gets planted on good ground.

While in Wyoming, Georgann liked to take walks just to see the antelope come by her.

The harvest is truly great. We have seen pastors do the work of many and still be bi-vocational.

From my observation of pastors I've come to know and love I believe God has given them special strength and abilities far above the average person.

I don't think they are aware of this strength but I see it with all of them.

Being a pastor is a calling and the proof is watching these men work with their flock.

Some churches we visited are doing more with the jail ministry, like Pastor Ron Derkson in Montana going fulltime in the prisons.

Gospel signs are being put on church buses as well.

Please be in prayer for more help with Gospel Text Mission.

We have a great commission that we are commanded to do !

## Bikers See the Word of God

While in Divide, Colorado we went to the streets where hundreds of motorcycles paraded down the main street.

## Custer, SD

Two signs are strategically placed on the building to proclaim God's Holy Word to all who arrive or depart the airport.

One large Gospel sign between the posts was deemed illegal, but three smaller ones are legal in New York State.
